

CHEVY CHASE ESTATES GARDEN CLUB November 2017

FLOWER OF THE MONTH: MUMS

A grower of chrysanthemums awaited a visit from the emperor, who was coming to enjoy his blossoms, of which there were hundreds in bloom. The grower selected one magnificent specimen, then cut down all the others, leaving this one perfect flower. The emperor arrived and sat for several hours quietly gazing at this beautiful flower, letting its beauty have its way with him. Can you imagine being so caught up in appreciation of one flower that everything else fades into the background?
